1. Quality, innovation, unparalleled customer service

Rigging the Dream™

Intro

Who we are.

YakAttack® LLC is a manufacturing company located in central Virginia. Founded in 2009 as a hobby, YakAttack® has quickly transformed into one of the most recognized and most exciting brands in the world for kayak fishing and SUP accessories.

A big reason for our early success is our unique position in the industry. We fish from kayaks and paddle boards, so we understand our market. We also have more than a dozen years of highly successful experience in product design as well as manufacturing process design in a variety of industries. We have a deep commitment to making our products in the USA, and for sourcing components in the USA whenever possible. Those factors combined with our outstanding customer service have enabled us to grow rapidly, and we're just getting started.

We see continued success moving forward. We are involved with the kayak fishing and paddle sports community at a deep, grassroots level, and have incredible brand recognition and brand loyalty. That's because we know how to listen and we know how to solve problems. We interact with our customers - both dealers and consumers - for product development suggestions, beta testing, and suggestions for improving both our company and our products.

Because of these things, we believe we are the right brand for any retailer to partner with as we work together to serve the explosive phenomenon that is kayak fishing. Join our network of authorized retailers and become part of the YakAttack® experience.

For our most recent pricing, please contact us at 434.392.3233 or send an email to orders@YakAttack.us, requesting the most recent Price Sheet / Order Form.

All YakAttack® products are subject to our Minimum Advertised Pricing (MAP) Policy, which is listed on the Price Sheet / Order Form.

This catalog is intended for authorized dealers of YakAttack® products and is to be distributed only by YakAttack® sales staff and representatives, and by authorized dealers among their staff. Distribution by any other party for any reason is strictly prohibited.

Refer to the YakAttack® Dealer and Distributor Agreement for our MAP policy and other terms and conditions.

How to use this Guide

Compatibility Symbols

Having a product line capable of solving almost every rigging challenge possible can get complicated. Conscious of this, we've created a system to help dealers and consumers understand the inter-compatibility of different components. Most of the products found in this catalog will be tagged with one or more compatibility symbols. These symbols may exist on the left or right of the header card. The compatibility symbols on the left shows <u>what that product attaches to,</u> whereas the compatibility symbols on the right show <u>what attaches to that product</u>.

Rigging the Dream™

Omega™ Rod Holders

The Omega Rod Holder attaches to your kayak, boat, or other watercraft with YakAttack's brand new LockNLoad™ mounting system, and is exactly what you would expect from the leader in track mounting technology. Offering unrivaled track mount security and adjustability, the patent pending LockNLoad™ track base is the most advanced track mount ever created. You want no slip? No problem. The LockNLoad™ track base attaches quickly and easily with a single MightyBolt, but will not accidentally rotate or loosen from the track, even when your trolling rod takes a big hit. This is a truly universal solution that works flawlessly with spinning, casting, larger conventional reels, and yes – even fly rods of all sizes.

RHM-1001

- *2 RotoGrip™ Paddle Holders*
  - *2 MightyMount Bar Clamps for attaching Accessories*
  - *Mesh carrying bag with shoulder strap*

MMBC-1001 (Not Shown)
MightyMount Bar Clamp
Enables you to attach YakAttack® products utilizing the MightyBolt™ t-bolt system to any round bar with a 1-1/4" OD. Great for attaching accessories to the YakAttack® CommandStand™, taking it from a stand assist bar to a complete stand-up fishing station.

Stakeout / Push Poles - ParkNPole™

When we set out to design a stakeout pole, we set our sights high. We wanted to create the highest quality and most functional product of its kind, and are happy to report that we achieved that goal. The ParkNPole™ from YakAttack® is a floating stakeout / push pole with lots of great features at an attractive price. Rigid, lightweight, and incredibly durable, the ParkNPole™ has quickly become a favorite with kayak anglers across the country.

PNP6
6' ParkNPole™
The most common length used for staking out kayaks, this 6 footer is also long enough for poling in the shallows.

PNP78
7' 8" ParkNPole™
Perfect for staking out or poling in deeper water, this 7' 8" model is long enough for a wide variety of applications but is still manageable on a kayak. To help with shipping cost the overall length falls under the new UPS and FedEx shipping rules.

UPDATED

Rigging the Dream™

Anchor Trolleys / Cleats

The first anchor trolley designed specifically for the job, the YakAttack® LeverLoc™ Anchor Trolley features a LeverLoc™ line clamp, which locks your trolley line in place with a simple "flip of a switch" motion. Another fresh ingredient is YakAttack's new PadHook, a simple but clever design that combines the functionality of both a pad-eye and a hook, keeping even the tightest trolley lines in place on the side of the kayak, not over your gunwale. When not in use, the easy-knot trolley ring snaps into the base of the LeverLoc™, quietly secured until deployed. Stepping up to the HD option gets you two extra PadHooks plus backing plates for the pulleys and LeverLoc™, enabling a heavy duty install when compared to the self-threading screws included in the standard kit. Featuring YakAttack® Stealth Pulleys for super smooth operation.

Leashes, Tethers, Retractors

Retractors

We've partnered with T-Reign to bring the dependability and quality of T-Reign's retractor system into the paddle sports world. Secure your gear without bulky leashes or floats using the YakAttack® Retractors. These super versatile units combine the innovation you've come to expect from YakAttack® and a genuine T-Reign retracting mechanism, 36" Kevlar cord, and a removable 4" tether.

Use these retractors to secure everything from pliers, knives, radios, or any tool that needs to be secure and within reach when needed.

BlackPak™ - Crate Systems

One of our best selling items and a standard in rod, tackle and gear management for kayaks. Designed for maximum versatility, the BlackPak™ allows anglers to store and organize their gear in any way they choose. The BlackPak™ is constructed from CNC machined panels of marine board, a plastic specifically designed for harsh marine environments and UV exposure, and is fastened with stainless steel hardware. It ships flat and assembles quickly using common hand tools. The interlocking design creates incredible strength, promising many years of trouble free service. The clean, tactical appearance demands attention and the rapidly developing line of BlackPak™ accessories means there's always another problem solving innovation just around the corner!

BLP-121611

BlackPak™, Black, 12" x 16" x 11", Incl. rod holders

This 12X16 crate has 10, predrilled stations for rod holders which can be mounted at a variety of angles for a total of 50 possible positions. The top rails are designed to accept MightyBolt™ accessories, eliminating the need for GearTracs or MightyMount IIs to attach your VISICarbon Pro™, PanFish, or other MightyBolt™ compatible accessories. Features carry handles, drain holes, and e-slots, allowing it to be quickly and easily secured with shock cord rigging that's factory installed across most kayak tank wells. Includes 3 rod holders.

Mounting Systems - Deck Mounts - MightyMount

The MightyMount is one of the most versatile mount in the industry. Low profile and with a small footprint, it can be installed in locations that other mounts simply will not fit. Whatever you do with the MightyMount, you'll find it does the job. And it does it well.

SMALL. TOUGH. VERSATILE.

with the LockNLoad™ Track system.

Visibility and Safety Products

In 2010, YakAttack® set the gold standard in kayak **VISICarbon** *Pro*
visibility with the VISICarbon Pro™. Fast forward
to today and this iconic product remains the most dependable and best-selling
flag/light combo in the industry. With a unique profile that's instantly
recognizable, the VISICarbon Pro™ has truly become one of the most fundamental
staples of kayak fishing.

Features:
- 360 Degrees of both Day and Night Time Visibility
- 48" High Fully Deployed, 14" Collapsed
- High Visibility Flag Doubles as Storage Pouch
- Lamp Life ≥ 10,000 Hours on Ultra-Bright, Highly Efficient LEDs
- Battery Life ≥ 100 Hours (3 AA Batteries Included)
- Narrow Profile, Carbon Fiber Mast has Low Wind Drag and is Strong and Lightweight
- Soft Foam Base Floats and Fits Perfectly in most Tube Style Rod Holders

All of these features combine to make the VISICarbon Pro™ the quintessential
accessory among both kayak anglers and recreational paddlers. Don't compromise
on safety; depend on what tens of thousands of other paddlers trust. There's only
one VISICarbon Pro™!
